Agricultural and Forest Meteorology, 44 (1989) 371–373
Elsevier Science Publishers B.V., Amsterdam — Printed in The Netherlands

CONTENTS VOLUME 44, 1988/89

Research Papers
Energy balance storage terms in a mixed forest
J.H. McCaughey and W.L. Saxton (Kingston, Ont., Canada) 1
A simple "equal area" calibration for fisheye photography
J.A. Clark and G.M. Follin (Loughborough, Gt. Britain) 19
Theory and performance of a dynamic diffusion porometer
J.L. Monteith (Loughborough, Gt. Britain), G.S. Campbell (Pullman, WA, U.S.A.) and E.A. Potter (Cambridge, Gt. Britain) 27
A comment on "A note on estimating the mean level of photosynthesis from radiation measurements" by Chris Koen
J. Lappi and H. Smolander (Suonenjoki, Finland) 39
Response to comment by Lappi and Smolander
C. Koen (Bophuthatswana, South Africa) 47
The solar radiation environment of greenhouse-grown Douglas-fir seedlings
S.E. Tuller (Victoria, B.C., Canada) and M.J. Peterson (Sidney, B.C., Canada) 49
Modelling the timing of the early development of winter wheat
K.Z. Travis, W. Day (Harpenden, Gt. Britain) and J.R. Porter (Bristol, Gt. Britain) 67
Modeling the effects of weather and management practices on maize yield
S.E. Hollinger (Champaign, IL, U.S.A.) 81

Guide for Authors 101

SPECIAL ISSUE: WINTER WHEAT, WATER, NITROGEN AND LATITUDE

Research Papers
Winter wheat response to water and nitrogen in the North American Great Plains
R.J. Reginato (Phoenix, AZ, U.S.A.), J.L. Hatfield (Lubbock, TX, U.S.A.), A. Bauer (Mandan, ND, U.S.A.), K.G. Hubbard, B.L. Blad, S.B. Verma (Lincoln, NE, U.S.A.), E.T. Kanemasu (Manhattan, KS, U.S.A.) and D.J. Major (Lethbridge, Alb., Canada) 105
Monitoring the weather at five winter wheat experimental field sites
K.G. Hubbard, B.L. Blad and S.B. Verma (Lincoln, NE, U.S.A.), A. Bauer (Mandan, ND, U.S.A.), J.L. Hatfield (Lubbock, TX, U.S.A.), E.T. Kanemasu (Manhattan, KS, U.S.A.), D.J. Major (Lethbridge, Alb., Canada) and R.J. Reginato (Phoenix, AZ, U.S.A.) 117
Effect of latitude on phenology of 'Colt' winter wheat
A. Bauer, R. Garcia, E.T. Kanemasu, B.L. Blad, J.L. Hatfield, D.J. Major, R.J. Reginato and K.G. Hubbard (Mandan, ND, U.S.A.) 131
Winter wheat grain yield response to water and nitrogen on the North American Great Plains
D.J. Major (Lethbridge, Alb., Canada), B.L. Blad, A. Bauer, J.L. Hatfield, K.G. Hubbard, E.T. Kanemasu and R.J. Reginato (Mandan, ND, U.S.A.) 141
Seasonal patterns of winter wheat phytomass as affected by water and nitrogen on the North American Great Plains
D.J. Major, B.L. Blad, A. Bauer, J.L. Hatfield, K.G. Hubbard, E.T. Kanemasu and R.J. Reginato (Lethbridge, Alb., Canada) 151

Influence of water and nitrogen levels on canopy temperatures of winter wheat grown in the North American Great Plains
B.L. Blad (Lincoln, NE, U.S.A.), A. Bauer (Mandan, ND, U.S.A.), J.L. Hatfield (Lubbock, TX, U.S.A.), E.T. Kanemasu (Manhattan, KS, U.S.A.), D.J. Major (Lethbridge, Alb., Canada), R.J. Reginato (Phoenix, AZ, U.S.A.) and K.G. Hubbard (Lincoln, NE, U.S.A.) 159
Interception and use efficiency of light in winter wheat under different nitrogen regimes
R. Garcia (Lincoln, NE, U.S.A), E.T. Kanemasu (Manhattan, KS, U.S.A.), B.L. Blad (Lincoln, NE, U.S.A.), A. Bauer (Mandan, ND, U.S.A.), J.L. Hatfield (Lubbock, TX, U.S.A.), D.J. Major (Lethbridge, Alb., Canada), R.J. Reginato (Phoenix, AZ, U.S.A.) and K.G. Hubbard (Lincoln, NE, U.S.A.) 175
Yield and water use of winter wheat in relation to latitude, nitrogen and water
J.L. Hatfield (Lubbock, TX, U.S.A.), A. Bauer (Mandan, ND, U.S.A.), E.T. Kanemasu (Manhattan, KS, U.S.A.), D.J. Major (Lethbridge, Alb., Canada), B.L. Blad (Lincoln, NE, U.S.A.), R.J. Reginato (Phoenix, AZ, U.S.A.) and K.G. Hubbard (Lincoln, NE, U.S.A.) 187

Research Papers
Determination of sensible heat flux over sparse canopy using thermal infrared data
W.P. Kustas (Beltsville, MD, U.S.A.), B.J. Choudhury (Greenbelt, MD, U.S.A.), M.S. Moran, R.J. Reginato, R.D. Jackson (Phoenix, AZ, U.S.A.), L.W. Gay (Tucson, AZ, U.S.A.) and H.L. Weaver (Denver, CO, U.S.A.) 197
Analysis of forest light environments. Part I. Computerized estimation of solar radiation from hemispherical canopy photographs
P. Becker, D.W. Erhart and A.P. Smith (Balboa, Republic of Panama) 217
Modelling of net photosynthetic productivity for buckwheat (*Fagopyrum esculentum* Moench)
L. Kajfež-Bogataj and A. Hočevar (Ljubljana, Yugoslavia) 233
Testing a theoretical climate–soil–leaf area hydrologic equilibrium of forests using satellite data and ecosystem simulation
R.R. Nemani and S.W. Running (Missoula, MT, U.S.A.) 245
Fetch requirements for Bowen ratio measurements of latent and sensible heat fluxes
J.L. Heilman, C.L. Brittin and C.M.U. Neale (College Station, TX, U.S.A.) 261
Predicting yield responses to different greenhouse CO_2 enrichment schemes: cucumbers and tomatoes
D.H. Willits and M.M. Peet (Raleigh, NC, U.S.A.) 275
Calibration of a small infrared sensor for measuring leaf temperature in the field: non-steady state conditions
M.E.D. Graham (Laval, Que., Canada), G.W. Thurtell and G.E. Kidd (Guelph, Ont., Canada) 295
The effect of increased transpiration on photosynthetis of corn. Part I. A field portable single plant enclosure system
M.E.D. Graham (Laval, Que., Canada), G.W. Thurtell and G.E. Kidd (Guelph, Ont., Canada) 307
The effect of increased transpiration on photosynthesis of corn. Part II. Comparisons between hydroponically and soil-grown plants
M.E.D. Graham (Laval, Que., Canada) and G.W. Thurtell (Guelph, Ont., Canada) 317
Relations between radiation fluxes of a greenhouse in semi-arid conditions
M. Al-Riahi, A. Al-Karaghouli, A.M. Hasson and A.W. Al-Kayssi (Baghdad, Iraq) 329
Model for operational forecasting of western Canada wheat yield
G.K. Walker (Winnipeg, Man., Canada) 339

A triple hot-film and wind octant combination probe for turbulent air flow measurements in and near plant canopies
D.R. Miller, J.D. Lin, Y.S. Wang and H.W. Thistle (Storrs, CT, U.S.A.) **353**
